

Advances in Post-Harvest Interventions To Reduce *Salmonella* in Poultry

Dr. Barbara Masters
FSIS Administrator

- **Farm to Table Approach**

- Pre-Harvest

- Post-Harvest

E. Coli Model

- FSIS conducted risk assessment
- Establishments reassessed their plans
- Result has been reductions in positive results in FSIS regulatory samples as well as reductions in foodborne illness

Challenge to Poultry Industry

- Use information from this meeting
- Use data you will begin receiving regarding your plant
- Reassess your food safety systems – **DO NOT WAIT** on FSIS to conduct an FSA
- Make the necessary changes in your programs to control *Salmonella* in your establishment

Transparent Data

- FSIS will share lessons learned from previous FSAs
- FSIS will share information from pre-harvest meeting
- FSIS will share information from literature review
- FSIS will share data

Improvements Expected

- FSIS believes the poultry industry is up for the challenge!
- FSIS will make information available.
- It is up to YOU to take make the difference!
