EXPORT REQUIREMENTS FOR TURKEY

ELIGIBLE/INELIGIBLE PRODUCT

- A. Ineligible. Fresh/frozen red meat/poultry and processed red meat/poultry and products thereof are not eligible for export to Turkey at this time.*

DOCUMENTATION REQUIREMENTS

Certification requirements for canned meat products. Obtain FSIS Form 9060-5, Meat and Poultry Export Certificate of Wholesomeness.

OTHER REQUIREMENTS

- A. Canned meat product(s). The following two additional documents are required:
1. Certificate of Origin, indicating where the food originated; and
 2. Certificate of Analysis, which includes a Physical Analysis, Chemical Analysis, and Microbiological Analysis. This analysis indicates not only the meat and products in the food but also identifies any additives (with their identification or E numbers) and quantities in the product. The values with regard to the pathogen microorganisms should also be included in the analysis.
- B. Ships' Stores. Meat and poultry products intended for ships' stores are eligible from any federally inspected facility. Product should be certified with FSIS Form 9060-5. The statement "Product intended for ships' stores should be typed in the remarks section.
