Robert Tynan, FSIS, OPAEO

- 1) What data could third parties provide to FSIS to further enhance protection of public health?
- 2) How can stakeholders assist the agency in improving collection, validation, analysis and application of data?
- 3) What mechanism(s) can be developed to bring different stakeholders together and share quality data?
 - Task force? Third party repository? Regularly scheduled stakeholder meetings? Other mechanisms?
- 4) What are the barriers to creating such a mechanism? What incentives could be used to encourage sharing of data?
