

# Thermy™

Thermy™ is the messenger of a national consumer education campaign designed to promote the use of food thermometers, developed by the Food Safety and Inspection Service (FSIS), U.S. Department of Agriculture (USDA).

Food Safety and Inspection Service, USDA  
 USDA does not endorse any products, services, or organizations.

A cartoon character of a food thermometer with a smiling face, wearing a white chef's hat and a red polka-dot bow tie. The thermometer's display shows 160°F. It is holding a white speech bubble that says "IT'S SAFE TO BITE WHEN THE TEMPERATURE IS RIGHT!". The character is mounted on a thermometer stem. The background is a vertical gradient from yellow at the top to purple at the bottom. The word "Thermy™" is written in a stylized font at the top left. The text "Temperature Rules!" is written in a stylized font at the top right. Below it, the text "... for cooking foods at home." is written. A list of temperature rules is provided:

- 145 °F Beef, lamb & veal steaks & roasts, medium rare (medium 160 °F)
- 160 °F Ground beef, pork, veal & lamb  
Park chops, ribs & roasts  
Egg dishes
- 165 °F Ground turkey & chicken  
Stuffing & casseroles  
Leftovers
- 170 °F Chicken & turkey breasts
- 180 °F Chicken & turkey  
whole bird, legs, thighs & wings

At the bottom left, the text "FSIS Food Safety and Inspection Service U.S. Department of Agriculture www.fsis.usda.gov" is written. At the bottom right, the text "USDA Meat and Poultry Hotline 1-800-535-4555 • TTY: 1-800-256-7072 E-mail: mphotline.fsis@usda.gov" is written. A disclaimer at the very bottom reads "USDA does not endorse any products, services, or organizations."
