

**Letterhead Certificate for Prepared Beef Products (Meat Preparations)  
Derived From Animals Less Than 30 Months of Age**

Date Issued: \_\_\_\_\_

Certificate Number: \_\_\_\_\_

1. The product is from the country of origin as indicated in this document.
2. The product is approved for human consumption.
3. The meat used in the elaboration of the product originates from the country indicated in this document.
4. The animals from which the product was obtained were slaughtered in installations authorized by the Department of Agriculture of the United States (USDA) and are dedicated exclusively to the slaughter of animals under the age of 30 months or that the plant has acceptable procedures for complete segregation that permits the official from USDA to identify and select the products to be exported.
5. The product was obtained from animals less than 30 months of age, determined by means of records that demonstrate the age or through the postmortem inspection in which it must be verified that the animals from which the product was obtained have two incisive permanent teeth or less.
6. In the country of origin of the product there exists animal health regulations in force that prohibit the feeding of ruminants with meat and bone meal or greaves of ruminant origin.
7. The bovines from which the product was obtained were not stunned by means of gas injection in the cranial cavity, or cutting of the spinal cord by laceration of the central nervous tissue, by means of introducing a sharp cutting instrument in the cranial cavity.
8. In the elaboration of the product to be exported, no ground beef or meat obtained by advanced meat recovery, nor mechanically separated meat, was included.
9. From the slaughtered ruminants from where the raw material was obtained the specific risk materials (tonsils and small intestine) were eliminated.
10. The raw materials of ruminant origin used in the elaboration of the products do not correspond to specific risk materials (brain, skull, eyes, trigeminal ganglia, spinal cord, vertebral column, dorsal root ganglia, osseous marrow, tonsils and small intestine).
11. The product was processed at an establishment under official control.
12. The raw materials employed in the elaboration of the products came from ruminants that were slaughtered after March 5, 2004.
