# **Export Requirements for the Czech Republic**

### **Export Alert**

Please be advised that the Czech Republic will become a member of the European Union effective May 1, 2004. As of that date, the export requirements currently in place for the Czech Republic will be replaced by those governing shipments to the EU. Therefore, effective May 1, 2004, all shipments of EU harmonized product to the Czech Republic must comply with EU export requirements. These requirements are available in the EU section of this library of export requirements.\*

## **Eligible/Ineligible Products**

### **A. Eligible Products**

Eligibility of further-processed red meat and poultry products has not been determined at this time. Exporters are advised to contact FSIS Technical Service Center at (402) 221-7400 for more information.

### **B. Ineligible Product**

Fresh/frozen red meat and poultry are not eligible for export because the additional certification requirements regarding Salmonella and residues cannot be met.
