I, the undersigned Official Veterinarian, certify that the above mentioned meat/meat products conform with the following requirements:

1. The beef is derived from cattle only and does not include meat of any animal other than cattle.
2. The beef is derived from cattle that received ante-mortem and post-mortem inspection and were found to be free of infectious and contagious disease.
3. The beef is fit for human consumption.
4. The USA is officially free of Bovine Spongiform Encephalopathy (BSE)
5. The USA is officially free of Rinderpest, and Foot and Mouth Disease (FMD)
6. The beef cattle were slaughtered and processed in an FSIS-inspected establishment.
7. The beef was not exposed to contamination during slaughter, processing, packaging or at any time prior to exportation.
8. All requirements of the US Meat Inspection Regulations have been complied with.
9. Levels of residue in the carcass are within the tolerance levels of the United States National Residue Program.
10. The beef is sent to Fiji in cleaned and disinfected containers which do not contain any other animal products. The beef is exported to Fiji in a cargo compartment or container that is thoroughly cleaned with a 2% solution of Sodium Hydroxide or a 4% solution of Sodium Carbonate, before the meat was loaded into it. The container did not, after it was cleaned, contain any other meat.
11. The container is sealed with a USDA seal and is incapable of being opened, after being so sealed, without breaking the seal.
