NOTICE OF SUSPENSION

Dear Mr. Safi:

This letter confirms the verbal notification provided to your establishment on August 29, 2019, by the Food and Safety Inspection Service (FSIS), Alameda District, of the of suspension of the assignment of inspectors at your establishment and the withholding of the marks of inspection for the slaughter operations, in accordance with 21 U.S.C. 603 and Title 9 Code of Federal Regulations (CFR) Part 500.3(b). This action is initiated due to your firm's failure to maintain or implement required controls to prevent the inhumane handling and slaughtering of livestock at your establishment and to appropriately handle animals in accordance with Title 9 CFR 313.15(a)(1) and Title 9 CFR 313.15(b)(1)(iv). This is in violation of 21 U.S.C. 603(b) of the Federal Meat Inspection Act, the Humane Methods of Slaughter Act of 1978, and the regulations promulgated thereunder.

Background/Authority

The Federal Meat Inspection Act (FMIA) (21 USC 603 et seq.) provides for preventing the inhumane slaughtering of livestock that FSIS has the authority, as designated by the Secretary of the Department of Agriculture, to prescribe rules and regulations describing examine and inspect the method by which cattle, sheep, swine, goats, horses, mules or other equines are slaughtered and handled in connection with slaughter in the slaughtering establishments inspected under the Act. FSIS may refuse to provide inspection to a new slaughtering establishment or may cause inspection to be temporarily suspended at a slaughter establishment if FSIS finds that any cattle, sheep, swine, goats, horses, mules, or other equines have been slaughtered or handled in connection with slaughter at such establishment by any method not in accordance with sections 1901 to 1906 of U.S.C Title 7 until the establishment furnishes assurances satisfactory to FSIS that all slaughtering and handling in connection with the slaughter of livestock shall be in accordance with such a method.

Under the authorities of the Act, FSIS has prescribed rules and regulations required for the humane slaughtering of livestock, as contained in Title 9 CFR Part 313, and the Humane Methods of Slaughter Act of 1978. FSIS has also developed Rules of Practice regarding enforcement prescribed in Title 9 CFR Part 500. The Rules of Practice describe the types of enforcement actions that FSIS may take and include procedures for taking a withholding action and or suspension, with or without prior notification, as well as the procedures for filing a complaint to withdraw a Grant of Federal Inspection.

Findings and Basis for Action:

On August 29, 2019, while observing the slaughter processes at Establishment M/P 39894, the FSIS Supervisory Public Health Veterinarian (SPHV) observed that the establishment failed multiple times to effectively stun a steer with a hand-held captive bolt gun.

The SPHV observed (b) (6) load the hand-held captive bolt gun and reach over the restrainer box to stun the animal (b) (6) fired the bolt gun, but the steer remained standing (b) (6) immediately reloaded the bolt gun and applied an additional stun, but the animal did not collapse (b) (6) reached for a different captive bolt gun, loaded it and fired, but again the animal continued standing (b) (6) reloaded this backup bolt gun and made a fourth attempt, which still did not render the steer unconscious. The SPHV observed blood coming from the steer's nostrils as it continued to be alert and standing.

The SPHV immediately placed U.S. Rejected tag #B37528650 on the restrainer box and called the Alameda District Office. Per discussion with the Alameda District Office, the SPHV approached (b) (6) of the facility who was currently onsite, and requested that he stun the animal. (b) (6) applied a single stun with the bolt gun to the poll, and the steer was rendered unconscious immediately.

After the head of the steer was skinned, the SPHV noted that there were two stun holes on the forehead that were out of range of the optimal target zone for captive bolt stunning. The SPHV informed Mr. Yahya Nasrat Stanikzai, Operations Manager and Mr. Shadab Husain, Vice President, of this incident and took regulatory control action in accordance with Title 9 CFR 313.50(c) and 500.2, halting further slaughter operations.

This is an egregious act of inhumane handling of animals in connection with slaughter, as this animal was not stunned and rendered unconscious immediately. Your establishment has a written systematic approach to humane handling, but your written plan does not include standard procedures for stunning cattle with a hand-held captive bolt gun.

This is an egregious noncompliance of 9 CFR 313.15(a)(1), which states in part, *"The captive bolt stunners shall be applied to the livestock in accordance with this section so as to produce immediate unconsciousness in the animals before they are shackled, hoisted, thrown, cast, or cut."* In addition, Title 9 CFR 313.15 (b)(1)(iv) states *"The stunning operation is an exacting procedure and requires a well-trained and experienced operator. He must be able to accurately place the stunning instrument to produce immediate unconsciousness. He must use the correct*

detonating charge with regard to kind, breed, size, age, and sex of the animal to produce the desired results.” This constitutes failure to adhere to the regulatory requirements of the humane handling and slaughter of livestock, as required by the Federal Meat Inspection Act, 21 U.S.C. 603(b), the Humane Methods of Slaughter Act, and the regulations promulgated thereunder.

The Federal Meat Inspection Act 21 U.S.C. Section 603(b) provides legal authority to suspend operations at any establishment where animals have not been handled in a humane manner as described in 7 U.S.C. 1901 where it states, *“It is therefore declared to be the policy of the United States that the slaughtering of livestock and the handling of livestock in connection with slaughter shall be carried out only by humane methods.”* In accordance with Title 9 CFR 500.3(b), the suspension of inspection at an establishment without prior notification for inhumane handling practices is warranted, as specified in Title 9 CFR 313 and under authority of 21 U.S.C. 621.

Based on the above findings and your failure to meet statutory and regulatory requirements for the humane handling and slaughter of livestock, and in accordance with Title 9 CFR 500.3(b), FSIS is suspending the assignment of inspectors and withholding the marks of inspection for the slaughter operations at your establishment. This letter confirms the verbal notification of the suspension of the assignment of inspectors for the slaughter operations that FSIS provided to your establishment on August 29, 2019.

The suspension of the assignment of inspectors will remain in effect until you can proffer to the FSIS, Alameda District Office, adequate written assurances including corrective actions and preventative measures to assure that livestock at your establishment are handled and slaughtered humanely, in accordance with the FMIA, The Humane Methods of Slaughter Act, and regulations promulgated thereunder.

In addition, failure to respond to this Notice of Suspension and failure to assure that animals at your establishment are handled and slaughtered humanely in accordance with the statutory and regulatory requirements may result in further administrative enforcement actions.

In accordance with Title 9 CFR 500.5(a)(5), you may appeal this action by contacting:
