EMAIL / COURIER

Mr. Rosalea Potter (Plant Manager)
Donald's Meat Processing, LLC, Est. M39968
194 McCorkle Drive
Lexington, Virginia 24450

NOTICE OF SUSPENSION

Dear Ms. Potter,

This letter confirms the verbal notification you were given on November 26, 2019, at approximately 1030 hours by the Food Safety and Inspection Service (FSIS) Inspection Program Personnel (IPP) of the suspension of the assignment of inspectors for slaughter operations at Donald's Meat Processing, LLC, Est. M39968, herein after referred to as "your establishment." This action was initiated in accordance with Title 9 of the Code of Federal Regulations (9 CFR) 500.3, after FSIS determined that your establishment failed to slaughter and handle animals humanely.

Background/Authority

The Federal Meat Inspection Act (FMIA) (Title 21 of the United States Code {21 U.S.C.} 603 et seq.) provides that for the purpose of preventing the inhumane slaughtering of livestock, the Secretary shall cause to be made, by inspectors appointed for that purpose, an examination and inspection of the methods by which cattle, sheep, swine, goats, horses, mules, or other equines are slaughtered and handled in connection with slaughter in the slaughtering establishments inspected under this Act. The Secretary may refuse to provide inspection to a new slaughtering establishment or may cause slaughtering to be temporarily suspended at a slaughtering establishment if the Secretary finds that any cattle, sheep, swine, goats, horses, mules, or other equines have been slaughtered or handled in connection with slaughter at such establishments by any method not in accordance with sections 1901 to 1906 of Title 7 until the establishment furnishes assurances, satisfactory to the Secretary, that all slaughtering and handling in connection with slaughter of livestock shall be in accordance with such a method.

The Humane Methods of Slaughter Act of 1978 (7 U.S.C. 1901 et seq.) provides that Congress finds that the use of humane methods in the slaughter of livestock prevents needless suffering; results in safer and better working conditions for persons engaged in the slaughtering industry; brings about improvement of products and economies in slaughtering operations; and produces other benefits

for producers, processors, and consumers which tend to expedite an orderly flow of livestock and livestock products in interstate and foreign commerce. It is therefore declared to be the policy of the United States that the slaughtering of livestock and the handling of livestock in connection with slaughter shall be carried out only by humane methods.

Findings/Basis for Suspension

At approximately 10:24am today, inspection program personnel (IPP) observed an establishment employee make five attempts to stun a market hog. The first three ineffective stuns were made with a .22 Magnum rifle using hollow point bullets. After each of the first three attempts, the animal remained conscious, standing or laying sternal, vocalized and appeared distressed. The employee then switched ammunition and used bullets with a full-metal jacket for the fourth attempt at stunning, which was also unsuccessful. The hog continued to lay sternal and vocalize in distress. The employee then switched back to a hollow point bullet and made a fifth stunning attempt which successfully rendered the hog unconscious. USDA Retain/Reject tag # B19193812 was placed at the entrance of the knock box at approximately 10:35am and slaughter on inspected animals was suspended. Upon inspection of the skull, four shots were placed incorrectly (too high up on the forehead at the thickest part of the skull) and stopped in bone. The final fifth shot was lower and slightly above the eyes on the midline.

This establishment does not have a robust, systematic approach to humane handling.

This incident represents a violation of 9 CFR 313.16(a)(1) which states *"The firearms shall be employed in the delivery of a bullet or projectile into the animal in accordance with this section so as to produce immediate unconsciousness in the animal by a single shot before it is shackled, hoisted, thrown, cast, or cut. The animal shall be shot in such a manner that they will be rendered unconscious with a minimum of excitement and discomfort."*

This incident is considered egregious because the animal was not rendered unconscious with the first stunning attempt, and the employee made multiple attempts to stun the animal in the absence of an immediate and effective corrective action.

The suspension action will remain in effect until you provide the Raleigh District Office with adequate written assurances, including corrective actions and further planned preventive measures, to assure that livestock at your establishment are slaughtered humanely. In order to resume inspected operations, you must submit corrective actions to my attention at the District Office. These corrective actions should include at a minimum the following:

1. Identify the assessment process used to determine the nature and cause of the noncompliances.

2. Identify what the assessment revealed as the likely cause of the system failure.
3. Describe the specific actions that will be taken to eliminate the cause of the failures.
4. Describe the future monitoring activities you will use to ensure that changes are implemented and are effective.

You are reminded that, as an operator of a federally-inspected plant, you are expected to comply with FSIS regulations and to take appropriate corrective actions to prevent inhumane handling of livestock at your establishment. Please be advised that your failure to respond adequately to these issues may result in our initiating action to withdraw inspection from your establishment. Please also be advised that you have the right to appeal this matter.

In accordance with 9 CFR 500.5(a)(5), you may appeal this action by contacting:

U.S. Department of Agriculture
Food Safety and Inspection Service
Attention: Michael Watts,
Executive Associate for Regulatory Operations
1400 Independence Avenue, SW
Room 344-E, Whitten Building
Washington, DC 20250

In addition, you may also request a hearing regarding this determination pursuant to FSIS' Rules of Practice (9 CFR 500.). The rules of Practice were published in the Federal Register, Vol. 64, No. 228, on November 29, 1999. As specified in Section 500.5(d), should you request a hearing, FSIS will file a complaint that will include a request for an expedited hearing. If you wish to request a hearing regarding this determination, you should contact:

Scott C. Safian, Director
Food Safety and Inspection Service
Office of Investigation, Enforcement and Audit
Enforcement and Litigation Division
Stop Code 3753, PP3, Cubicle 8-235A
1400 Independence Avenue, SW
Washington, D.C. 20250
Voice: (202) 418-8872
Fax: (202) 245-5097

It is our hope that this matter can be resolved quickly. If you have any questions, please call me at 919-208-2945 or Dr. Beth Cunningham, Deputy District Manager, at 919-208-2934. We urge your cooperation and voluntary compliance.

Sincerely,

**ROGER
