Subject: FOIA request re. feral swine processing
To: <arianne.perkins@fsis.usda.gov>

Dear Ms. Perkins,

I respectfully submit the following FOIA request for information related to feral swine processing:

Please provide a nationwide list of processing facilities with USDA inspection that have processed feral swine during 2017 and 2018, with the following information:

1. Number of feral swine processed, by facility, during all of 2017 and to-date in 2018. If quantities are easily available by month, that's great, but not necessary.
2. Complete contact information for each facility, to include at least business name, contact name, phone number, complete physical address, and if available, email address, website, and county.
3. If available, the number of instances of brucellosis or other diseases reported among feral swine, by facility, by year (and month if available).
4. Any additional information available about the feral swine processed, such as counts by sex and weights. I certainly don't need the weight of every one, but can take it that way if that's easiest to provide. Median & mean or counts per weight brackets would be fine.

Please provide the information in MS Excel or .csv format.

Please let me know if you have any questions, if slight changes would facilitate fulfilling the request, or if I can be of any assistance.

Thank you for your time and attention.

Regards,
Bruce Curtis

RE: FOIA-2019-00042

Feral swine

Dear Mr. Curtis:

This is the final response to your Freedom of Information Act (FOIA) request, dated October 20, 2018, to the U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS). You requested access to a copy of records regarding feral swine processing, from 2017 to October 20, 2018. We received your request in our Office on October 22, 2018.

The FSIS FOIA staff works with subject matter experts across the Agency to locate responsive documents. For this request, we conducted a records search in the Office of Planning, Analysis, and Risk Management. FSIS' search began on October 25, 2018. Our search includes responsive records in FSIS' control on that date.

We have located an excel spreadsheet that is responsive to your request. After a thorough review, we have determined that portions of these records are exempt from disclosure under (b)(4) of the FOIA, 5 U.S.C. § 552, as amended. Accordingly, this request is granted in part.

Some responsive records constitute confidential commercial or financial information, which is exempt from disclosure under FOIA Exemption 4, 5 U.S.C. § 552(b)(4). Disclosure of this information may cause substantial competitive harm to the person from which this information was obtained.

You may appeal this determination within 90 days from the date of this letter. Your appeal should include copies of your original request and this response, as well as a discussion of the reasons supporting your appeal. The envelope should be plainly marked to indicate that it contains a FOIA appeal. If you decide to appeal this determination, please send your appeal to:
