

# WORK LIFE **4** YOU

## Emergency Backup Dependent Care

As part of WorkLife4You, you have access to Emergency Backup Dependent Care. No more scrambling for help when you suddenly find yourself in need of backup care due to illness, the weather, last-minute cancellations or any other circumstance. Emergency Backup Dependent Care will connect you with reliable care providers who are available—even at the last minute—to look after children and adult loved ones. Emergency Backup Care provides:

### Coverage for the entire family:

- Children and adult loved ones, including mildly ill.
- Self-care if you are ill or recovering from illness or surgery.

### Flexible placement options:

- Licensed centers and in-home care providers.
- Friends and family members you know and trust.
- You choose which is right for your needs from recommended options.

### Affordable, convenient care:

- All care must be preauthorized, can be reserved up to 30 days in advance or at the last minute.
- You pay only a \$10 a co-pay when you use network providers.
- We'll reimburse you for the cost of care minus the \$10 co-pay when you use out-of-network providers.
- We'll reimburse you up to \$100 per day for the cost of care when you use friends and family members.
- You can use the service for up to 20 visits per covered family member per fiscal year.

### Be Prepared

Most child care centers require current health/immunization records in order to care for your child. It is recommended that you keep up-to-date copies of these records at home where they are easily accessible if needed.

### More Benefits from WorkLife4You

Get expert guidance and personalized referrals to local resources to assist with all of your most important needs, including: child and elder care, schools and financial aid, pet care, auto and home services, and more!
