

Addendum to accompany the FSIS Letterhead Certificate for the Export of Frozen or Chilled Poultry Meat to Chile

Protocol attached to the Sanitary Certificate Nº -1- ¹
Protocolo anexo al certificado sanitario número ¹

The Official Veterinary Officer (OVO) certifies that,
El Médico Veterinario Oficial certifica que,

1) The birds from which the meat derives were vaccinated with a killed virus vaccine against a low pathogenic avian influenza virus subtype that is not notifiable to the OIE.
Las aves que dieron origen a la carne fueron vacunadas con una vacuna inactivada de un virus de la influenza aviar de baja patogenicidad no notificable a la OIE.

Or² / O²

2) The birds from which the meat derives were vaccinated with a killed virus vaccine against a low pathogenic avian influenza virus subtype H5 or H7, and a surveillance strategy permitting differentiation of infected and vaccinated animals was used to rule out H5 and H7 viral circulation.

Las aves que dieron origen a la carne fueron vacunados con una vacuna inactivada de un virus de la influenza aviar de baja patogenicidad del subtipo H5 o H7, y se les aplicó una estrategia de vigilancia DIVA (differentiation of infected and vaccinated animals) que permitió descartar circulación viral de los subtipos H5 o H7.

- 3.- Indicate place and date of issuing / Indicar lugar y fecha de expedición
- 4.- The name of the veterinary officer (in capital letter). Signature and the official seal of the competent authority must be of a different color as the text. / El nombre del Médico veterinario oficial (en mayúscula), su firma, y el sello de la autoridad competente, deben ser de color distinto al texto.

**GUIDELINE FOR THE COMPLETION OF THE FSIS LETTERHEAD
ADDENDUM CERTIFICATE TO EXPORT FROZEN OR CHILLED RAW
POULTRY MEAT TO CHILE**

1. Strikeout the certification statement that does not agree with the signed statement provided by the APHIS accredited industry veterinarian responsible for the flock of origin. The signed statement by the APHIS accredited industry veterinarian will only accompany a flock to live bird receiving when birds have been vaccinated with a Killed Virus vaccine for AI. (Typically the first option is the correct one, and the second alternative would be lined out by the certifying plant veterinary official.)
2. Enter the city and state where the letterhead certificate is signed.
3. Enter the date the FSIS signing official signs the letterhead certificate.
4. The signing official stamps this block with the export stamp and enters their initials where the number would normally appear.
5. FSIS certifying official signs certificate.
