RE: Petition 20-04

Joe Jurgielewicz & Son, Ltd. is submitting this letter in support of petition 20-04 for modification of FSIS forms to allow the export of poultry which has received inspection except as exempted by religious dietary laws.

Current FSIS documentation does not allow attestation for religious exempt poultry, which is creating an unnecessary barrier to trade. We have demand for our products abroad but are excluded from global markets. Our producers seek to have their products available for sale to all markets with agency support.

We ask that agency forms are modified to allow for the export of religious exempt poultry.

Respectfully submitted,

Nela Stasulli
Quality Assurance Manager
Joe Jurgielewicz & Son, Ltd.
