

Recommended Pre-Work for the Inspection Methods training course

Purpose

This list provides information for the newly selected Consumer Safety Inspector (CSI) or Public Health Veterinarian (PHV) about the recommended pre-work which the Agency recommends should be completed prior to attending formal classroom training. Completion of the recommended pre-work will help familiarize you with background material and will help you succeed in the classroom training.

Instructions

These recommended courses are optional; however, FSIS Center for Learning recommends that you complete these prior to attending formal classroom training. Work with your supervisor to develop a plan for completing the pre-work. Employees who would like to complete the courses during duty hours should consult with their supervisor for permission to use official time for course completion. All of the training courses require the use of a computer. Employees who would like to use an FSIS computer should request the use of a computer through their supervisor.

Course title	Approximate Length
Industry Practices for Producing Raw Product	3.0 Hrs.
FSIS Industry Practices for Producing Not Shelf Stable, Ready-to-Eat/Not Ready-to-Eat Products	3.0 Hrs.
FSIS Industry Practices for Producing Shelf Stable Products	5.0 Hrs.
FSIS NR Writing	3.0 Hrs.
