I hereby inform you of the following regarding the commercial poultry flocks listed above.

1. The flock has a system in place to maintain records on animals, movements, and production records for 3 years.
2. The flock receives regular animal health visits from a veterinarian, which are conducted at least annually. The last visit was on ________________ [insert date].
3. The company has procedures in place to ensure eggs are obtained only from poultry which did not show symptoms of transmissible diseases at the time of collection.
