MODIFICATIONS TO THE KIDNEY INHIBITION SWAB (KISTM™) REASON CODE SELECTION OPTIONS IN THE PUBLIC HEALTH INFORMATION SYSTEM

I. PURPOSE

This notice provides information to Public Health Veterinarians (PHVs), Supervisory Consumer Safety Inspectors (SCSIs), and Consumer Safety Inspectors (CSIs) regarding the changes to KISTM testing reason codes in the Public Health Information System (PHIS).

II. BACKGROUND

FSIS implemented changes to the Kidney Inhibition Swab (KISTM™) test reasons in PHIS that will simplify the KISTM reason selection process. The updated KISTM reason codes will improve data entered into PHIS and better inform the Agency’s KISTM testing results and follow-up actions.

III. INSTRUCTIONS

A. Inspection Program Personnel (IPP) are to review the PHIS Animal Disposition Reporting (ADR) User Guide for detailed instructions on using the PHIS ADR module, entering a livestock disposition record, and entering KISTM test results.

B. IPP are to select the Reason Code from the drop down menu in the Disposition Record corresponding to the reason IPP selected the animal for KISTM Testing. The Reason codes are:

1. ADR condition-select when animal is KISTM tested for the same condition as recorded in the disposition record;
2. Unhealthy show/fair animals;
3. Statistically selected;
4. History (includes ante-mortem inspection findings, possible exposure on farm);
5. Repeat violator;
6. Signs of treatment (injection site, bolus, recent surgery);
7. Bob veal (9 CFR 310.21);
8. Exploratory assessment or special projects; and
9. Prolapse-select when an animal is tested due to a rectal or vaginal prolapse.
C. IPP are to follow the instructions in **FSIS Directive 10.800.1, Residue Sampling, Testing and Other Verification Procedures under the National Residue Program for Meat And Poultry Products**, for residue sampling of healthy show animals.

IV. QUESTIONS

Refer questions regarding this directive to your immediate supervisor or to the OPPD through askFSIS or by telephone at 1-800-233-3935. When submitting a question, complete the web form and select Residue as the Inquiry Type.

**NOTE:** Refer to **FSIS Directive 5620.1, Using askFSIS**, for additional information on submitting questions.
