NOTICE OF SUSPENSION

Dear Ms. Houchens,

This letter confirms the verbal notification provided to your establishment on June 15, 2022, by the Food Safety and Inspection Service (FSIS), Alameda District, of the withholding of the marks of inspection and the suspension of the assignment of inspectors for the Slaughter operations at your establishment in accordance with 21 U.S.C. 603 and Title 9 Code of Federal Regulations (CFR) Part 500.3 (b). This action is initiated due to your firm’s failure to maintain or implement required controls to prevent the inhumane handling and slaughtering of livestock at your establishment in accordance with Title 9 CFR Part 313.2(a). This is a noncompliance with 21 U.S.C. 603(b) of the Federal Meat Inspection Act, the Humane Methods of Slaughter Act of 1978, and the regulations promulgated thereunder.

Background/ Authority

The Federal Meat Inspection Act (FMIA) (21 USC 603 et seq.) provides for the purpose of preventing the inhumane slaughtering of livestock that FSIS has the authority, as designated by the Secretary of the Department of Agriculture, to prescribe rules and regulations describing examine and inspect the method by which cattle, sheep, swine, goats, horses, mules or other equines are slaughtered and handled in connection with slaughter in the slaughtering establishments inspected under the Act. FSIS may refuse to provide inspection to a new slaughtering establishment or may cause inspection to be temporarily suspended at a slaughter establishment if FSIS finds that any cattle, sheep, swine, goats, horses, mules, or other equines have been slaughtered or handled in connection with slaughter at such establishment by any method not in accordance with sections 1901 to 1906 of U.S.C. Title 7 until the establishment furnishes assurances satisfactory to FSIS that all slaughtering and handling in connection with the slaughter of livestock shall be in accordance with such a method.

Under the authorities of the Act, FSIS has prescribed rules and regulations required for the humane slaughtering of livestock, as contained in Title 9 CFR Part 313, and the Humane
Methods of Slaughter Act of 1978. FSIS has also developed Rules of Practice regarding enforcement prescribed in Title 9 CFR Part 500. The Rules of Practice describe the types of enforcement actions that FSIS may take and include procedures for taking a withholding action and/or suspension, with or without prior notification, as well as the procedures for filing a complaint to withdraw a Grant of Federal Inspection.

**Findings/Basis for Action**

On June 15, 2022, the FSIS Frontline Supervisor (FLS) and Supervisory Public Health Veterinarian (SPHV) observed your establishment’s failure to conduct the handling of livestock in accordance with the regulatory requirements. At approximately 1200 hours, the FLS and SPHV walked to the corral area at your establishment to verify compliance with humane handling requirements. They observed one semitrailer backed up to the unloading ramp and heard loud vocalization of cattle coming from the trailer. Upon closer look, the FLS and SPHV observed overcrowding of cattle on the lower level of the trailer, approximately 19 head, loaded in the lower middle section of the trailer. There were cows lying down on top of other cows, most of them were panting and some were overturned with hooves in the air. Many of the animals displayed signs of discomfort and injury, had open mouth breathing and frothy secretions from the mouth and nostrils. The FLS and SPHV immediately notified [redacted] of the distressed animals on the trailer. In this crucial situation due to the extreme temperatures (92°F) and overcrowding conditions, the livestock were not unloaded in a timely manner. It was not until the FLS and SPHV approached plant management to notify them of the conditions observed that the establishment took action.

[redacted] establishment employees started euthanizing the nonambulatory cattle at the unloading end of the trailer before [redacted] arrived in the area. After euthanizing and removing several of the nonambulatory cattle from the trailer, several of the plant employees were observed lifting conscious nonambulatory cattle by their tails to upright them and get them to stand. FSIS personnel informed [redacted] of the observations and requested the employees use a different method to get them to stand. Plant employees started using rattle paddles to get the cattle to stand.

The SPHV further observed several plant employees pushing the nonambulatory disabled conscious cattle from the side in an attempt to get the cattle to rise. On the second level of the trailer, the FLS and SPHV further observed several cattle trampling on nonambulatory cattle while being unloaded from the trailer.

The SPHV was also informed by [redacted] that the steers were from Superior Feedlot and had foot and leg problems. Some of the animals had swollen joints.

The establishment employees unloaded a total of 19 Holstein steers that are being held as U.S. Suspects; and 11 were euthanized and condemned.
The FLS informed [b] that FSIS inspection program personnel would be tagging the restrainer so that no stunning and slaughter could occur. The SPHV applied U.S. Rejected Tag # B35489676 to the restrainer.

This event is an egregious noncompliance of inhumane handling of animals in connection with slaughter, as the nonambulatory cattle on the trailer were not handled with a minimum of excitement or discomfort. This is a violation in accordance with Title 9 CFR 313.2(a) which states in part: “Driving of livestock from the unloading ramps to the holding pens and from the holding pens to the stunning area shall be done with a minimum of excitement and discomfort to the animals.” This constitutes failure to adhere to the regulatory requirements of the humane handling and slaughter of livestock, as required by the Federal Meat Inspection Act, 21 U.S.C. 603(b), the Humane Methods of Slaughter Act, and the regulations promulgated thereunder. In FSIS Directive 6900.2, Revision 3, one definition of egregious inhumane handling describes “Otherwise causing unnecessary pain and suffering to animals, including situations on trucks.”

The Federal Meat Inspection Act 21 U.S.C. Section 603(b) provides legal authority to suspend operations at any establishment where animals have not been handled in a humane manner as described in 7 U.S.C. 1901 where it states, “It is therefore declared to be the policy of the United States that the slaughtering of livestock and the handling of livestock in connection with slaughter shall be carried out only by humane methods.” In accordance with Title 9 CFR 500.3(b), the suspension of inspection at an establishment without prior notification for inhumane handling practices is warranted, as specified in Title 9 CFR 313 and under authority of 21 U.S.C. 621.

These findings demonstrate your failure to adhere to the regulatory requirements of the humane handling and slaughter of livestock, as required by the Federal Meat Inspection Act, 21 U.S.C. 603(b) and the Humane Methods of Slaughter Act, and the regulations promulgated thereunder.

Based on the above findings and your failure to meet statutory and regulatory requirements for the humane handling and slaughter of livestock, and in accordance with Title 9 CFR 500.3(b), FSIS is suspending the assignment of inspectors and withholding the marks of inspection for the slaughter operations at your establishment. This letter confirms the verbal notification of the suspension of the assignment of inspectors for the slaughter operations that FSIS provided to your establishment on June 15, 2022.

The suspension of the assignment of inspectors will remain in effect until such time as you can proffer to the FSIS, Alameda District Office, adequate written assurances including corrective actions and preventative measures to assure that livestock at your establishment are handled and slaughtered humanely, in accordance with the FMIA, The Humane Methods of Slaughter Act, and regulations promulgated thereunder.

In addition, failure to respond to this Notice of Suspension and failure to assure that animals at your establishment are handled and slaughtered humanely in accordance with the statutory and regulatory requirements may result in further administrative enforcement actions.

In accordance with Title 9 CFR 500.5(a)(5), you may appeal this action by contacting:
Sherri N. Johnson
