NOTICE OF REINSTATEMENT OF SUSPENSION

Dear Mr. Maloney:

This letter confirms the verbal notification that was provided to your establishment on July 6, 2022, by the Food Safety and Inspection Service (FSIS), Alameda District, of the reinstatement of the withholding of the marks of inspection and the suspension of the assignment of inspectors for the Slaughter operations at your establishment in accordance with 21 U.S.C. 603 and Title 9 Code of Federal Regulations (CFR) Part 500.3 (b). This action is initiated due to your firm’s recurring failure to maintain or implement required controls to prevent the inhumane handling and slaughter of livestock in connection with slaughter at your establishment, and to appropriately stun an animal prior to slaughter in accordance with Title 9 CFR Part 313.15(a)(1). This is a noncompliance with 21 U.S.C. 603(b) of the Federal Meat Inspection Act, the Humane Methods of Slaughter Act of 1978, and the regulations promulgated thereunder.

These observations indicate that the corrective actions and preventive measures you proffered in response to the Notice of Suspension (NOS) verbally issued on April 29, 2022, which was also issued for similar incidents of inhumane handling where you failed to prevent the inhumane handling and slaughtering of livestock at your establishment, were ineffective and/or not implemented to ensure that your establishment adheres to the regulatory requirements of the humane handling and slaughter of livestock.

Background/Authority

The Federal Meat Inspection Act (FMIA) (21 USC 603 et seq.) provides for the purpose of preventing the inhumane slaughtering of livestock that FSIS has the authority, as designated by
the Secretary of the Department of Agriculture, to prescribe rules and regulations describing
examine and inspect the method by which cattle, sheep, swine, goats, horses, mules or other
equines are slaughtered and handled in connection with slaughter in the slaughtering
establishments inspected under the Act. FSIS may refuse to provide inspection to a new
slaughtering establishment or may cause inspection to be temporarily suspended at a slaughter
establishment if FSIS finds that any cattle, sheep, swine, goats, horses, mules, or other equines
have been slaughtered or handled in connection with slaughter at such establishment by any
method not in accordance with sections 1901 to 1906 of U.S.C. Title 7 until the establishment
furnishes assurances satisfactory to FSIS that all slaughtering and handling in connection with
the slaughter of livestock shall be in accordance with such a method.

Under the authorities of the Act, FSIS has prescribed rules and regulations required for the
humane slaughtering of livestock, as contained in Title 9 CFR Part 313, and the Humane
Methods of Slaughter Act of 1978. FSIS has also developed Rules of Practice regarding
enforcement prescribed in Title 9 CFR Part 500. The Rules of Practice describe the types of
enforcement actions that FSIS may take and include procedures for taking a withholding
action and/or suspension, with or without prior notification, as well as the procedures for
filing a complaint to withdraw a Grant of Federal Inspection.

**Findings/Basis for Action**

On July 6, 2022, the FSIS Supervisory Public Health Veterinarian (SPHV) observed your
establishment’s failure to conduct slaughter of livestock in accordance with regulatory
requirements. At approximately 0620 hours, your employees loaded a lamb into the small
livestock restrainer. The stunner employee applied the penetrating handheld captive bolt gun to
the lamb’s forehead, but the lamb remained standing upright and breathing. The employee
immediately picked up the backup loaded handheld captive bolt gun and applied a second
stunning blow to the forehead; however, the lamb continued to remain standing upright and
breathing. The establishment employee reloaded the backup gun and applied a third stun to the
forehead region which was again ineffective; the animal remained standing and breathing. When
the employee applied the fourth stun slightly higher than the prior attempts, the lamb was finally
rendered unconscious. The SPHV notified the establishment, that no further stunning would be allowed due to the inhumane handling of livestock. The SPHV applied U.S. Rejected tag #B-26 819491 to the restrainer at 0621 hours to stop further stunning of animals.

After the establishment skinned the head, the SPHV observed three holes on the lamb skull. One
hole, which was larger than the others, was midline just below the level of the eyes. A second
hole was present between the eyes but more lateral; the hole was one inch off midline towards
the left eye. The third hole was on midline approximately one inch above the eyes.
This is an egregious act of inhumane handling of animals in connection with slaughter, as your establishment failed to effectively stun a lamb so that it was immediately unconscious on the first stun attempt. Your establishment does not currently have a Robust Systematic Approach for humane handling and slaughter of livestock.

This is a violation of Title 9 CFR 313.15(a)(1), which states, “The captive bolt stunners shall be applied to the livestock in accordance with this section to produce immediate unconsciousness in the animals before they are shackled, hoisted, thrown, cast, or cut. The animals shall be stunned in such a manner that they will be rendered unconscious with a minimum of excitement and discomfort.” This constitutes failure to adhere to the regulatory requirements of the humane handling and slaughter of livestock, as required by the Federal Meat Inspection Act, 21 U.S.C. 603(b), the Humane Methods of Slaughter Act, and the regulations promulgated thereunder.

Previously, on April 29, 2022, the Alameda District Office notified your establishment of the withholding of the marks of inspection and suspension of the assignment of inspectors at your facility in accordance with 21 U.S.C. 603 and Title 9 Code of Federal Regulations (CFR) Part 500.3(b). This action was initiated due to your firm’s similar failure to maintain or implement required controls to prevent the inhumane handling and slaughter of a beef cow at your establishment and to appropriately handle animals in accordance with Title 9 CFR 313.15(a)(3). These events were in violation of 21 U.S.C. 603(b) of the Federal Meat Inspection Act, the Humane Methods of Slaughter Act of 1978, and the regulations promulgated thereunder. As stated in the Notice of Suspension Held in Abeyance dated May 4, 2022, your establishment’s failure to comply with regulatory requirements or effectively implement your commitments and agreements, may result in the reinstatement of the suspension of inspection in your establishment.

Additionally, on February 3, 2022, the Alameda District Office notified your establishment of the withholding of the marks of inspection and suspension of the assignment of inspectors at your facility in accordance with 21 U.S.C. 603 and Title 9 Code of Federal Regulations (CFR) Part 500.3(b). This action was initiated due to your firm’s similar failure to maintain or implement required controls to prevent the inhumane handling and slaughter of a market hog at your establishment and to appropriately handle animals in accordance with Title 9 CFR 313.15(a)(1).

The Federal Meat Inspection Act 21 U.S.C. Section 603(b) provides legal authority to suspend operations at any establishment where animals have not been handled in a humane manner as described in 7 U.S.C. 1901 where it states, “It is therefore declared to be the policy of the United States that the slaughtering of livestock and the handling of livestock in connection with slaughter shall be carried out only by humane methods.” In accordance with Title 9 CFR 500.3(b), the suspension of inspection at an establishment without prior notification for inhumane handling practices is warranted, as specified in Title 9 CFR 313 and under authority of 21 U.S.C. 621.
These findings demonstrate your failure to adhere to the regulatory requirements of the humane handling and slaughter of livestock, as required by the Federal Meat Inspection Act, 21 U.S.C. 603(b) and the Humane Methods of Slaughter Act, and the regulations promulgated thereunder.

Based on the above findings and your failure to meet statutory and regulatory requirements for the humane handling and slaughter of livestock, and in accordance with Title 9 CFR 500.3(b), FSIS is suspending the assignment of inspectors and withholding the marks of inspection for the slaughter operations at your establishment. This letter confirms the verbal notification of the suspension of the assignment of inspectors for the slaughter operations that FSIS provided to your establishment on July 6, 2022.

The suspension of the assignment of inspectors will remain in effect until such time as you can proffer to the FSIS, Alameda District Office, adequate written assurances including corrective actions and preventative measures to assure that livestock at your establishment are handled and slaughtered humanely, in accordance with the FMIA, The Humane Methods of Slaughter Act, and regulations promulgated thereunder.

In addition, failure to respond to this Notice of Suspension and failure to assure that animals at your establishment are handled and slaughtered humanely in accordance with the statutory and regulatory requirements may result in further administrative enforcement actions.

In accordance with Title 9 CFR 500.5(a)(5), you may appeal this action by contacting:

Sherri N. Johnson
