

### Part III. Notes for completion

These notes for completion must be read and understood by the certifying officer before signing the certificate. Notes are set out in sections that correspond to the sections in the certificate. By signing this certificate, certifiers are verifying that the consignment meets the requirements set out in the certificate and any relevant corresponding notes for completion.

These notes do not need to be printed as part of a paper certificate that accompanies the consignment or in any electronic copy of the certificate.

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018) and can be viewed on the UK legislation website ([legislation.gov.uk](http://legislation.gov.uk)).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

References to GB requirements refer to the requirement(s) of Great Britain as set out in the accompanying notes for completion.

(\*) Keep as appropriate – This means that the nonapplicable language preceded by (\*) should have one single strikethrough (Please note this is not an 'error' and therefore the export mark, official veterinarian's initials and date should not be added to those strikethroughs).

### Part I

- Box reference I.12: Complete as appropriate. Address (and approval number if known) of the warehouse in a free zone, free warehouse, customs warehouse or ship chandler shall be included.
- Box reference I.15: Keep as appropriate. The registration number(s) of rail-wagon or lorry and the name of the ship should be given as appropriate. If known, the flight number of the aircraft. In case of transport in containers or boxes, the total number, their registration and seal numbers, if present, should be indicated under point I.23.
- Box reference I.28: *Treatment:* Treatment that has been applied from the options listed in AH/P607 of the model health certificate laid down for import into Great Britain of animal casings intended for human consumption. This states that casings should be cleaned and scraped, and either salted with NaCl for 30 days, or bleached, or dried after scraping.  
*Description:* Complete as appropriate.

### Part II

#### Animal Health

No further notes for completion.
