SUPPLEMENTARY INFORMATION:

Title: Accreditation of Laboratories, Transactions, and Exemptions.

OMB Number: 0583–0082.

Expiration Date of Approval: 12/31/2020.

Type of Request: Renewal of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.33), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, et seq.), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, et seq.) and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, et seq.). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting a revision of the approved information collection for the accreditation of laboratories; transactions with official meat and poultry establishments, egg products processing plants, and other firms; and exemptions from requirements of the FMIA and PPIA. FSIS has reduced the burden estimate for this collection by 13 hours based on updated information.

The approval for this information collection will expire on December 31, 2020.

FSIS requires accredited non-Federal analytical laboratories to maintain certain records (9 CFR 439.20 & 590.580). The Agency uses this collected information to ensure that non-Federal laboratories act in accordance with FSIS regulations.

The FMIA (21 U.S.C. 642), the PPIA (21 U.S.C. 460(b)), and the EPIA (21 U.S.C. 1040) require establishments, brokers, wholesalers, or otherwise, to keep records that fully and correctly disclose all transactions involved in their businesses related to relevant animal carcasses and parts and egg products.

In addition, FSIS requires establishments to keep records to ensure that meat and poultry products exempted from Agency inspection are not commingled with inspected meat and poultry products (9 CFR 303.1(b)(3) & 381.175).

Finally, FSIS requires retailers to maintain records determined to have violated the requirements associated with the retail exemptions in the FMIA and PPIA to keep sales purchase and sales records to ensure future compliance (9 CFR 303.1(d)(3) & 381.10(d)(3)).

FSIS has made the following estimates based upon an information collection assessment:

Respondents: Accredited laboratories, official meat and poultry establishments, egg products processing plants and other firms.

Estimated No. of Respondents: 27,743.

Estimated No. of Annual Responses per Respondent: 122.

Estimated Total Annual Burden on Respondents: 114,326 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Room 6065, South Building, Washington, DC 20250–3700; (202) 720–5627.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS’s functions, including whether the information will have practical utility; (b) the accuracy of FSIS’s estimate of the burden of the proposed collection of information, including the
validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20253.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People’s Republic of China: Notice of Court Decision Not in Harmony With Final Results of Antidumping Duty Administrative Review and Notice of Amended Final Results

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On June 15, 2020, the United States Court of International Trade (the Court) sustained the second remand redetermination pertaining to the 2014–2015 antidumping duty (AD) administrative review of crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells), from the People’s Republic of China (China). The Department of Commerce (Commerce) is notifying the public that the final judgment in this litigation is not in harmony with Commerce’s final results in the 2014–2015 AD administrative reviews of solar cells from China, and therefore Commerce is amending those final results, as explained below.

SUPPLEMENTARY INFORMATION:
Background
On June 27, 2017, Commerce published its Final Results of the 2014–2015 AD administrative review of solar cells from China.1 On April 16, 2019, the Court directed Commerce to reconsider or further explain its surrogate value selections for Canadian Solar International Limited (Canadian Solar)2 and Changzhou Trina Solar Energy Co., Ltd.’s (Trina)3 module glass, its application of an adverse inference, in part, in calculating Canadian Solar’s dumping margin, and its decision not to grant Ningbo Qixin Solar Electrical Appliance Co., Ltd. (Qixin) a separate rate.4

In the First Remand Redetermination, Commerce continued to calculate Canadian Solar’s dumping margin using partial adverse facts available (AFA) in pulsed factors of production (FOP) for which consumption quantities were not provided by certain unaffiliated suppliers.5 With regard to Qixin, Commerce continued to find that Qixin is not eligible for a separate rate.6 Commerce also determined, under respectful protest, to value Canadian Solar’s module glass using data provided in its protest.7
