

**SAMPLE LETTER
MODIFICATION TO EXISTING EGG PROCESSING FACILITY**

December 19, 2013

Mr. William Eggmanship
Plant Manager
Old Way Egg Company
22 U.S. Highway Route 66
Anytown, USA & Zip code

Dear Mr. Eggmanship:

We have reviewed drawings and supplemental information submitted to the District Office reflecting modifications to your egg products processing facility in Anytown, USA.

The drawings show the replacement of your current liquid egg storage facilities and equipment with new construction and four new Walker vertical silos. Additionally, the drawings show a new APV plate heat exchanger to provide increased cooling capacity.

The installation appears to be in compliance with the Regulations Governing the Inspection of Eggs and Egg Products according to 9 CFR 590. Therefore we are declaring no-objection related to these drawings applicable to official plant #0041 G.

Floor Plan – Facility Layout – Silo Alcove Room

The acceptance of these drawings is conditional, pending a final survey by Field Operations to determine that all facilities, equipment and installations are in accordance with the regulations. Upon completion of the final survey a member of Field Operations will advise you of conformance with the regulations.

Sincerely,

District Manager
