Mr. Travis Powell, Owner
Powell Meat Company LLC, Est. M51306+V51306
117 Rives Rd
Clinton, MO 64735

NOTICE OF SUSPENSION

Dear Mr. Powell,

This serves as official notification by the Food Safety and Inspection Service (FSIS) of the suspension of the assignment of inspection personnel related to your Slaughter process at Est. M51306+V51306, Powell Meat Company LLC, located at 117 Rives Rd Clinton, MO, 64735, as per Title 9 of the Code of Federal Regulations (CFR) 500.3(b) (Rules of Practice). This Notice of Suspension (NOS) is based on your failure to prevent inhumane handling and slaughter of livestock at your facility as required by 9 CFR 313.16(a)(1), and 313.16(a)(3).

Background / Authority

In 7 U.S.C. 1901, the Humane Methods of Slaughter Act (Humane Slaughter Act) states: *The Congress finds that the use of humane methods in the slaughter of livestock prevents needless suffering; results in safer and better working conditions for persons engaged in the slaughtering industry; brings about improvement of products and economies in slaughtering operations; and produces other benefits for producers, processors, and consumers which tend to expedite an orderly flow of livestock and livestock products in interstate and foreign commerce. It is therefore declared to be the policy of the United States that the slaughtering of livestock and the handling of livestock in connection with slaughter shall be carried out only by humane methods.*

FSIS has developed Rules of Practice regarding enforcement (9 CFR Part 500) that describe the types of enforcement action that FSIS may take and include procedures for taking a withholding action and/or suspension, with or without prior notification, and for filing a complaint to withdraw a grant of federal inspection. As provided in 9 CFR 500.3(b), FSIS may impose a suspension without providing the establishment prior notification because the establishment is handling or slaughtering animals inhumanely.

In 21 U.S.C. 603(b), the Federal Meat Inspection Act (FMIA) states: *For the purpose of preventing the inhumane slaughtering of livestock, the Secretary shall cause to be made, by inspectors appointed for that purpose, an examination and*

inspection of the method by which amenable species are slaughtered and handled in connection with slaughter in the slaughtering establishments inspected under this chapter. The Secretary may refuse to provide inspection to a new slaughtering establishment or may cause inspection to be temporarily suspended at a slaughtering establishment if the Secretary finds that any cattle, sheep, swine, goats, horses, mules, or other equines have been slaughtered or handled in connection with slaughter at such establishment by any method not in accordance with the Act of August 27, 1958 (72 Stat. 862; 7 U.S.C. 1901–1906) until the establishment furnishes assurances satisfactory to the Secretary that all slaughtering and handling in connection with slaughter of livestock shall be in accordance with such a method.

Findings / Basis for Action

As documented in MOI MCU0714062017G, at approximately 8:30 a.m. on June 17, 2020, FSIS Inspection Program Personnel (IPP) observed a stun failure on a steer in your establishment's slaughter area. An establishment employee attempted to shoot the animal with a .22 caliber rifle, but the shot went into the back of the neck and did not stun the animal. Another employee attempted to apply a second stun with the rifle. Although the animal dropped to the floor, it continued to exhibit signs of consciousness, including rhythmic breaths, tracking movements with its eyes, and sitting on its haunches with its head up. The employee then applied a third stun, which produced immediate unconsciousness.

Your establishment failed to comply with 9 CFR 313.16(a)(1), and 313.16(a)(3), the Humane Slaughter Act (section 1902), and the Federal Meat Inspection Act (21 U.S.C. 603(b)). IPP verbally notified you that inspection operations were suspended at your establishment on June 17, 2020 and took a regulatory control action by applying U.S. Rejected Tag No. B 32712600 to the knock box.

Therefore, in accordance with FSIS Rules of Practice, 9 CFR 500.3(b), we are formally notifying you of the suspension of the assignment of inspection personnel at your facility. The suspension will remain in effect until you provide adequate written corrective and preventive measures to assure that all livestock at your facility will be handled in a humane manner during slaughter. We will determine further action, if any, based upon your response. Your response should include:

1. Your description of the details of the incident.
2. An initial assessment of the incident and determination of the cause.
3. Immediate corrective actions taken.
4. Measures to prevent recurrence.
5. Any training of employees and materials used.
6. Type of monitoring activity for future stunning of livestock, along with a documentation record.

In accordance with 9 CFR 500.5(d), you may request a hearing concerning this action by contacting:
