Mr. Steve Sytsma  
Establishment M46184  
Steve & Laura, LLC  
1011 144th Avenue  
Wayland, MI 49348

## **NOTICE OF SUSPENSION**

Dear Mr. Sytsma:

This letter confirms verbal notification provided to you by Dr. Tamara Davis, Deputy District Manager, on December 12, 2019, at approximately 1130 hours EST, of the FSIS decision to suspend the assignment of inspectors from your slaughter process at Steve & Laura, LLC, establishment M46184, located at 1011 144<sup>th</sup> Avenue, in Wayland, Michigan. This action is based on your establishment's failure to effectively implement humane methods of slaughtering and handling animals in a manner that complies with the regulatory requirements prescribed by the Federal Meat Inspection Act (FMIA) and Humane Methods of Slaughter Act (HMSA). Your establishment is in violation of Title 9 of the Code of Federal Regulations (9 CFR) Section 313.16(a)(1) and 313.16(b)(1)(iii) regarding the humane slaughter of livestock. The Rules of Practice, 9 CFR 500.3(b), specify that FSIS may issue a suspension without providing prior notification if an establishment is handling or slaughtering animals inhumanely.

### **Background and Authority**

The Federal Meat Inspection Act (21 U.S.C. 603 Section 3(b) states, *"for the purpose of preventing the inhumane slaughtering of livestock, the Secretary shall cause to be made, by inspectors appointed for that purpose, an examination and inspection of the method by which cattle, sheep, swine, goats, horses, mules, or other equines are slaughtered and handled in connection with slaughter in the slaughtering establishments inspected under this Act. The Secretary may refuse to provide inspection to a new slaughtering establishment or may cause inspection to be temporarily suspended at a slaughtering establishment if the Secretary finds that any cattle, sheep, swine, goats, horses, mules, or other equines have been slaughtered or handled in connection with slaughter at such establishment by any method not in accordance with Sections 1901 to 1906 of Title 7 until the establishment furnishes assurances satisfactory to the Secretary that all slaughtering and handling in connection with slaughter of livestock shall be in accordance with such a method."* In addition, under prohibited acts 21 U.S.C. 610 sec 10 (b), *"No person, establishment or corporation shall, with the respect to any cattle, sheep, swine, goats, horses, mules, and other equines, or any carcasses, parts of carcasses, meat or meat food products of any such animals slaughter or handle in connection with slaughter any such animals in any manner not in accordance with sections 1901 to 1906 of Title 7."*

The Humane Methods of Slaughter Act, 7 USC 1901, states, *"The Congress finds that the use of humane methods in the slaughter of livestock prevents needless suffering; results in safer and better working conditions for persons engaged in the slaughtering industry; brings about improvement of products and*

*economies in slaughtering operations; and produces other benefits for producers, processors, and consumers which tend to expedite an orderly flow of livestock and livestock products in interstate and foreign commerce. It is the policy of the United States that the slaughtering of livestock and the handling of livestock in connection with slaughter shall be carried out only by humane methods.”*

The Humane Methods of Slaughter Act, 7 USC 1902, states, “*No method of slaughtering or handling in connection with slaughtering shall be deemed to comply with the public policy of the United States unless it is humane.*” When an egregious situation has been identified, FSIS can refuse to provide inspection and indefinitely withdraw inspection from an establishment provided the establishment is afforded the right to an administrative hearing.

Under the authority of the above Acts, FSIS has prescribed rules and regulations required for establishments producing meat and poultry products, including the requirements pertaining to the humane slaughter of livestock, as required by 9 CFR 313, and other matters. FSIS has also developed Rules of Practice regarding enforcement, within in 9 CFR 500. The Rules of Practice describe the types of enforcement action that FSIS may take a withholding action and/or suspension, with or without prior notification, and for filing a complaint to withdraw a Grant of Federal Inspection.

### **Findings/Basis for Action**

On December 12, 2019, at approximately 1030 hours EST, the Consumer Safety Inspector was observing the procedure for cattle stunning and described the following. The establishment is a mobile slaughter unit and stuns livestock confined to pens on the premises of the respective farm. Other than confinement, the area for stunning is not equipped with a means of restraint, and cattle are able to move freely within the pen. An employee using a .22 magnum caliber rifle from a distance of several feet attempted to stun a steer. The shot struck the animal in the head and it remained standing, vocalized, and began running within the pen. A second employee, also wielding a .22 magnum caliber rifle, was prepared to administer a second shot, however, the animal continued to run around within the pen. The second employee attempted to stun the animal when the head of the moving animal presented itself. The shot was fired from a distance of approximately two feet and struck the animal in the head. The animal remained conscious and continued to move freely within the pen. The first employee then moved into a different position and when the head of the moving animal presented itself, fired a third and effective shot, rendering the animal unconscious at that time. Establishment management was informed that the slaughter process was subject to regulatory control with U. S. Rejected tag B45054735.

The observations as described constitute a failure to comply with the regulatory requirements of 9 CFR 313.16(a)(1) which specifies: “*(1) The firearms shall be employed in the delivery of a bullet or projectile into the animal in accordance with this section so as to produce immediate unconsciousness in the animal by a single shot before it is shackled, hoisted, thrown, cast, or cut. The animal shall be shot in such a manner that they will be rendered unconscious with a minimum of excitement and discomfort,*” and 9 CFR 313.16(b)(1)(iii) which specifies, in part, “*The stunning area shall be so designed and constructed as to limit the free movements of animals sufficiently to allow the operator to locate the stunning blow with a high degree of accuracy.*”

The occurrence of this inhumane handling incident constitutes an egregious violation of the humane handling requirements specified within the provisions of 21 U.S.C. 603, Section 3 (b) of the FMIA, and 7 U.S.C. 1901 and 1902 of the HMSA of 1978.

### **Summary and Conclusion**

On September 9, 2004, FSIS published "Humane Handling and Slaughter Requirements and the Merits of a Systematic Approach to Meet Such Requirements" in the Federal Register Notice (54 Fed. Reg. 54625). On August 15, 2011, FSIS released FSIS Directive 6900.2 Revision 2, entitled, "Humane Handling and Slaughter of Livestock." Additionally, on October 23, 2013, FSIS introduced new guidance, titled "FSIS Compliance Guide for a Systematic Approach to the Humane Handling of Livestock." Within the guidance material is information intended to better ensure the humane treatment of livestock presented for slaughter. The guidance material provides a set of practices designed to minimize excitement, discomfort, and accidental injury regarding the humane handling of livestock to include the four components of a robust systematic approach to humane handling.

In cases where an egregious animal handling incident is observed by FSIS inspection program personnel (IPP), the Agency provides for regulatory discretion in the decision of the type of enforcement action issued if an establishment maintains a written systematic approach that meets the criteria for robustness. Although you maintain a written program that has been considered robust, it was not sufficiently implemented at this time.

Please provide this office with a written response to address the regulatory issues identified within this letter. At a minimum, your corrective actions should address the following:

1. Identify the specific reason(s) why the events described occurred.
2. Describe the specific action(s) that will be implemented to eliminate the cause of the incident and prevent future recurrences.
3. Describe the specific future monitoring activity or activities that your establishment will employ to ensure the actions implemented are effective.
4. Provide any supporting documentation and records maintained and associated with your proposed corrective actions and preventive measures.

If you have questions regarding this matter, you may contact (b) (6)

(b) (6)

(b) (6)

or you may

contact this office at (630) 620-7474 or by fax at (630) 620-7599.

Please be advised that you have the right to appeal this matter. If you wish to appeal this action, contact:

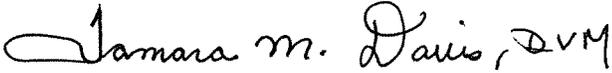

Michael Watts  
Executive Associate for Regulatory Operations

Room 3168 - South Building  
1400 Independence Avenue, SW  
Washington, DC 20250  
Telephone: (202) 205-0194

In addition, you may also request a hearing regarding this determination pursuant to FSIS' Rules of Practice (9 CFR Part 500). The Rules of Practice were published in the Federal Register, Vol. 64, No. 228, on November 29, 1999. As specified in Section 500.5(d), should you request a hearing, FSIS will file a complaint that will include a request for an expedited hearing. If you wish to request a hearing regarding this determination, you should contact:
