Letterhead Certificate for Ovine or Caprine Casings Originating in the United States

Date Issued: \_\_\_\_\_ Certificate Number: \_\_\_\_\_

1. The casings were derived from ovine, or caprine animals that have been born, raised and slaughtered in the United States, which are free from foot and mouth disease, rinderpest and peste des petits ruminants.
2. Indicate species of origin (ovine or caprine):
3. Slaughter Dates:
4. The name, address, and establishment numbers of the establishments where the animals from which the casings were derived were slaughtered:
5. The name, address, and establishment numbers of the establishments where the casings were prepared, processed and/or stored:
6. The animals from which the casings were derived were subject to ante-mortem and postmortem inspection at the time of slaughter and were free from contagious and infectious disease which could be transmitted in casings.
7. That the country of origin of the ovine casings is a scrapie free country or the consignment does not contain casings derived from sheep or goats over 12 months of age which originate from countries or zones not considered free from scrapie.
8. The casings were processed and packed:
  - so that each packing container contains casings derived from a single species of animal only;
  - so that the casings were not exposed to contamination before export;
  - in clean, new or disinfected packing containers; and
  - so that the official establishment number of the establishment where the casings were packed was readily visible on the outer wrapping or package.
