

Keep Hands **Clean!** with Good Hygiene

**September is National
Food Safety Education Month®**

Cleanliness is a major factor in preventing foodborne illness.

Wash hands with warm, soapy water for 20 seconds:

- before and after handling food
- after using the bathroom
- after changing a diaper
- after handling pets
- after tending to a sick person
- after blowing your nose, coughing, or sneezing
- after handling uncooked eggs or raw meat, poultry, or fish and their juices
