SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius Commission (Codex) was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The CCCF was established by the Commission in 2006 as a separate Committee to establish or endorse maximum levels for contaminants and naturally occurring toxicants in food and feed; to prepare priority lists of contaminants and naturally occurring toxicants for risk assessment by the Joint FAO/WHO Expert Committee on Food Additives (JECFA); to consider methods of analysis and sampling for determination of contaminants and naturally occurring toxicants in food and feed; to consider and elaborate

standards or codes of practice for related subjects; and to consider other matters assigned to it by the Commission in relation to contaminants and naturally occurring toxicants in food and feed. The Committee is hosted by The Netherlands.
