I understand that while doing business with Food Safety Inspection service (FSIS), I may have access to FSIS systems that contain:

- a. Extremely sensitive business or acquisition-related information, strategic and planning documents, and other information relating to the United States Department of Agriculture (USDA), Food Safety and Inspection Service (FSIS) programs and initiatives;
- b. Data and information in the possession of FSIS for which FSIS's right to use and disclose any of the data and/or information is restricted, of which may be of a nature that its dissemination or use other than in the performance of this audit, would be adverse to the interests of the United States Government, the privacy of the United States citizens or other parties;
- c. Information labeled as "Limited Official Use Only," "Official Use Only," or "Sensitive Security Information," which is disclosed only for the purpose of carrying out one or more provisions of this audit;
- d. Information covered by the Privacy Act of 1974;
- e. Logon credentials for the Public Health Information System (PHIS) Web Service.

Except as specifically authorized by the FSIS Point of Contact (POC), release of such information is not authorized. I agree that this obligation shall continue both during the period of my current participation and thereafter. In the event that I release any information described above or become aware that such information has been released by someone else, I agree to promptly notify the POC. Having knowledge of information that has been released to someone else (and not reporting the incident) may also result in the termination of my participation in the acquisition. When advising the POC, I will provide the POC with the following information: (1) the business organization or other entity, or individual person, to whom the information in question was divulged, (2) the identity of the person that disclosed the information, and (3) the content of the information.
