### Case Information

Contact Name	Carlene Brusca	Case Owner	USDA Agency Representative
Contact Phone	[REDACTED]	Status	Assigned to Agency
Contact Email	[REDACTED]	Agency Tracking ID	
Contact Address	[REDACTED]	Agency Detail	

### Description Information

**Who are you trying to contact?** The White House and President Obama

**Description** First - I am a supporter of you and your presidency in general. I sincerely thank you for all you have done for the nation.

Thank you for closing the loophole that allowed sick and injured cattle to be slaughtered and put into the human food supply. Your action is preventing untold cruelty and suffering for countless cows and helping to protect American consumers.

Unfortunately, hundreds of thousands of innocent pigs still face intolerable abuse when they become too ill or injured to walk, a result of the abuse they endure in massive animal agribusiness operations. Each year, thousands of animals are pushed beyond their physical limits by intensive farming practices, becoming what the industry calls "downed." These vulnerable animals are often beaten or even shocked with electric prods to force them onto slaughterhouse kill floors.

The U.S. Department of Agriculture should apply the rule you enacted for adult cattle to all livestock, including pigs, by granting USDA FSIS Petition 14-02. I urge you to direct the Secretary of Agriculture to swiftly extend the downed cattle rule to all animals who are so sick or injured that they can't even walk.

Thank you fro your time,  
Sincerely  
Carlene

The U.S. Department of Agriculture should apply the rule you enacted for adult cattle to all livestock, including pigs, by granting USDA FSIS Petition 14-02. I urge you to direct the Secretary of Agriculture to swiftly extend the downed cattle rule to all animals who are so sick or injured that they can't even walk.

Although massive reforms are needed in the animal agriculture industry--both for the sake of human health and the environment, as well as to prevent the extreme cruelty to animals that occurs on a large scale basis every day on factory farms--this is a hugely important next step in ending animal cruelty. Please make a difference in the lives of these suffering animals! Thank you.

Farm animals are treated in egregiously cruel ways, please end this. Thank you
