

Minimum mandatory information for the label to be affixed to the original packaging, for identification in Portuguese of imported goods

1. Product name in Portuguese;
2. Ingredients: In descending order of initial amounts in the formula, including additives used, their INS number and their technical function. The presence or absence of gluten should be indicated. For retail products, allergens must also be indicated, either by stating that the product contains the allergenic ingredient, a derivative of the allergenic ingredient, or the allergenic ingredient and a derivative. A "may contain" statement is required in the case of potential cross contamination. Products for further processing may indicate allergen information on the documentation.
3. Statements about gluten content and allergens. If the product does not contain gluten, it should state in Portuguese the following: **NÃO CONTÉM GLUTÉN**
 - If the product contains gluten: **CONTÉM GLUTÉN;**
 - If the product contains allergenic content the company should describe it and consult the legislation for that specific allergen.
4. Produced by (corporate name of the product manufacturer);
5. Location of the producing establishment (city, state and country)
6. Establishment Number: health control number at the Veterinary/Health Service for Inspection of Products of Animal Origin. The official stamp or hallmark (inspection stamp) of the agency in charge of health control of the product may be placed on this label if desired.
7. Imported by: corporate name of the importer
8. Batch identification or lot number: XXXX
9. Manufacturing date (day / month / year)
10. Expiration date (day / month / year)
11. Weight: (following metric system)
12. After opening the package, what is the shelf life.
13. The company should include a mandatory sentence with the label number. The label number is chosen by the company. Usually the number should follow this format: 0000/000 (sequential number - 4 digits, slash, followed by the health control number of the establishment) for each product.
Sentence: Registration at the Ministry of Agriculture SIF/DIPOA under 0001/XXXX
14. Also please include the country of origin. Example: U.S. Industry, made in U.S., etc

Note: Additional information on product preservation, storage and use must be displayed on the label; in addition, it should comply with the requirements of other inspection agencies.

Products that contain more than 15 kg do not need a nutritional table. Products containing less than 15 kg and for direct consumption are required to include the nutritional table according to the Brazilian legislation.
