Letterhead Certificate for Poultry Slaughtered on or after March 12, 2014  
and before March 24, 2014

Date Issued: \_\_\_\_\_ Certificate Number: \_\_\_\_\_

1. There have been no outbreaks of highly pathogenic notifiable avian influenza (HPNAI) in the United States for at least 90 days before shipment of the exported poultry meat; or when the United States has an outbreak of HPNAI, there have been no outbreaks of HPNAI in the State where birds for export meat were produced for at least 90 days before shipment of the exported poultry meat. Further, in the area where birds for export meat were produced (such an area being within a minimum radius of 50 kilometers from the production farm), Newcastle disease, fowl cholera and other serious infectious fowl diseases as recognized by the government of the United States, have not occurred for at least 90 days before shipment of the exported poultry meat.
2. The live poultry used for the production of the exported poultry meat did not originate from New Jersey, Maryland or Delaware and did not pass through New Jersey, Maryland or Delaware before being carried into poultry processing plants.
3. To the best of FSIS' knowledge, products are stored in clean and sanitary wrapping and containers are handled in a way to prevent being exposed to any pathogens or any animal infectious diseases prior to shipment.
